## About my school

Hi, this is our school, the Comprehensive Institute "Giuseppe Moscato".

In Italy education system is divided into 5 stages: Kindergarten, Primary School, Lower Secondary School, Upper Secondary School and University.

Our Comprehensive Institute includes 3 stages: Kindergarten (3-5-year-old children), Primary School (6-10-year-old students) and Lower Secondary School (11- 13-year-old students).

The central school building "Giuseppe Moscato" is located in Gallina, a district in the south of Reggio Calabria. Other school buildings depend on it. They are located in the surrounding areas such as Terreti, Santa Venere, Arangea and Oliveto.

Our Institute is named after the journalist and writer Giuseppe Moscato. On the centenary of his birth, this year our school has announced a journalistic competition in his honour.

Scuola Primaria  
«G. Moscato»

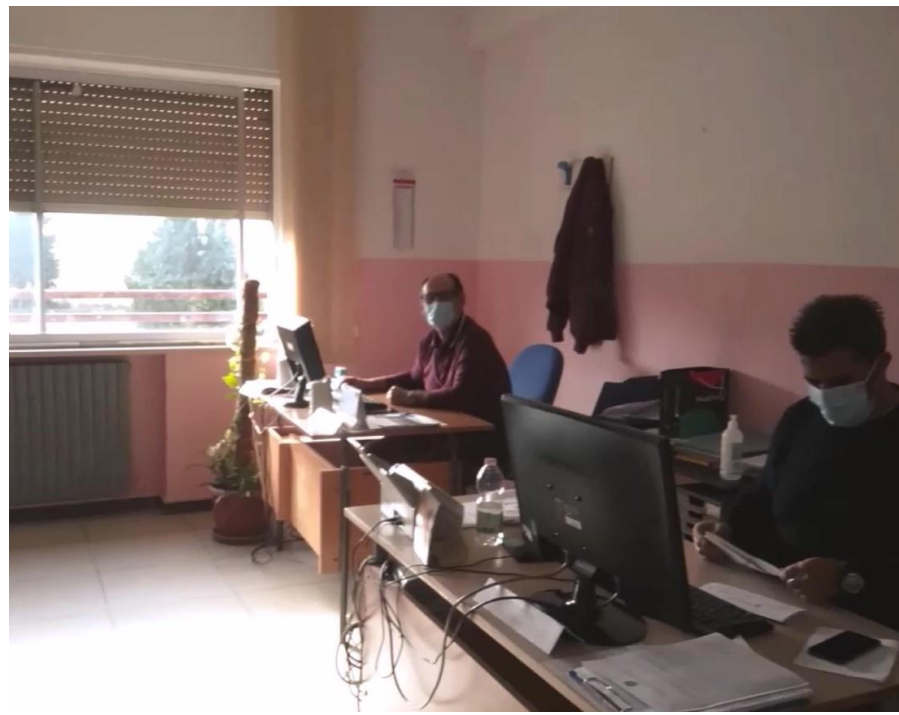

Erasmus+

The central school building is the beating heart of our school, where you can find its administrative offices and the Headteacher's office.

In this building there is the Primary School of Gallina. It has bright classrooms, interactive boards, a library, and some laboratories: a computer lab, a language lab, a science lab and a robotics lab.

Scuola Secondaria di I grado  
«Asprea»

Erasmus+

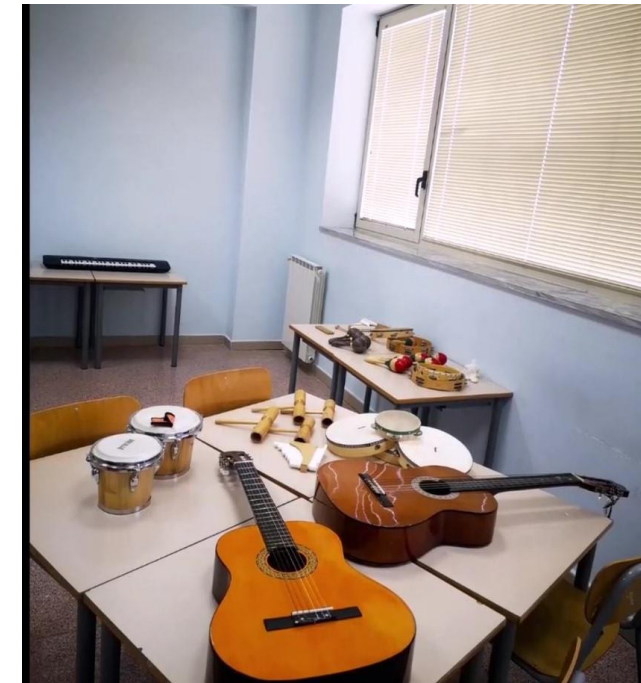

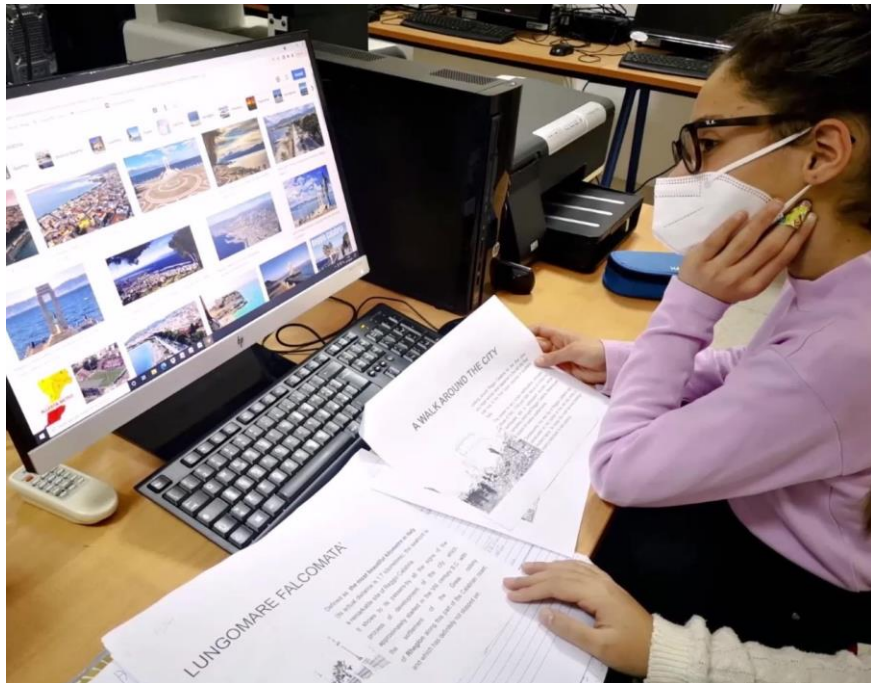

## The Lower Secondary School

One of the buildings located in Gallina is that of our Lower Secondary School. It is named "Asprea".

This school is on 2 floors. It has large and bright classrooms, that are all equipped with an interactive board.

We have also several special classrooms: a library, a gym, a music laboratory, a multimedia laboratory and a language laboratory.

Scuola Secondaria di I grado  
**«Oliveto»**

Hello to everybody! Welcome to our school in Oliveto.

My name is Claudio and I'm 12 years old. I'm happy to guide you in this virtual tour.

Here we are in the hall. There you can see the Middle School classrooms for 11 to 13-year-old students.

In the central part of the building there are the Primary School classrooms for 6 to 10-year-old students.

At the end of the hall there is the Kindergarten for 3 to 5-year-old children.

In our school we have also a full equipped ICT lab.

The part of the school we love most is the courtyard where we have our midmorning snack on sunny days. Here we can do several outdoor activities like the creation of a vegetable garden.

There is also a sports field, where all the students can play basketball and do gym, and a playground for kids.

I'm looking forward to hosting you very soon in our beautiful school.

**Bye-bye!**
